Projects

Secure Share

This a file sharing platform used to carry out encrypted file sharing. Secure share involves the use of encryption techniques to secure files during their transfer or storage, ensuring that only authorized individuals can access and decipher the contents.

Online Ticket Booking

This is an online ticket booking platform. In Kolkata there are many tourist attractions for historic places like Victoria memorial and Indian museum. But everywhere people have to get tickets by standing in a queue so to counter this problem we have created an online ticket booking platform so people can get tickets from home without any hassle.
